Special Note:

We can't believe March is already upon us. It seems like the months are flying by much too quickly. February was a flash and I am sure summer will be here in the blink of an eye. We are delighted with the progress of all our children at this point of the school year. All have totally excelled in all their preschool activities. We feel so fortunate to have such amazing, bright, and beautiful children. We also appreciate all of our parents' efforts in our behalf. Your participation and communication makes our job so much easier.

What we do at school:

We make a craft or free art activity daily that corresponds to the theme. We are really crunching on numbers, adding, subtracting, counting, with every item we can when playing. We review sight words during games, as well as compound words, syllables, opposites, and rhyming words. We pretend to write and work on writing letters in dramatic play. We review beginning sounds when reviewing pictures in books.

We are working with small groups daily to make sure they are all where they need to be in order to be prepared for kindergarten. We work on listening, social and emotional skills. Please continue your efforts at home, home connected with school has been proven to be the best possible combination for student's ongoing academic success!

A BIG THANK YOU for being such great parents!
