OUR GOAL

At the All Children Excel Academy our goal is to nurture each child's educational, physical, social, and emotional development in a safe & caring environment. Learning Centers provide direct, hands on activities through the creative learning process. Our stimulating gymnastics program will develop an enthusiasm for fitness in your child that will promote a healthy lifestyle while enhancing gross motor skills as well as increase general learning. We encourage self-expression, social awareness, and a positive self-concept through stimulating activities and learning opportunities in the world around us.

OUR MISSION

The mission of All Children Excel Academy is to encourage, love, and provide a foundation on which each child will grow mentally, physically, socially, and emotionally.

OUR PROGRAM

We are committed to providing a fun environment that stimulates creativity, inventiveness and self-awareness through hands-on learning. Our curriculum is Creative® - a developmentally appropriate program that supports active learning and promotes children's progress in all developmental areas.

We are DCF licensed and as such all of our teachers have the required teaching credentials, undergo background checks, and receive appropriate continuing education in early childhood development.

We are a VPK provider and participate in the 4-C school readiness program.
